SUMMARY

Full Stack Developer with a solid technical foundation and a strong ability to adapt to new challenges. Responsible, proactive and committed professional, capable of meeting objectives in demanding, high-pressure environments while maintaining a high standard of work.

Effective team player with clear communication skills and a focus on delivering solutions that generate real value for projects. Fast learner who adapts easily to new technologies, tools and work methodologies.

In addition to my technical responsibilities, I can lead teams when a project requires it, support technical decision-making and contribute to problem-solving while remaining aligned with business objectives and team well-being.

Professional with broad experience and skills across multiple areas of software development, committed to excellence, continuous improvement and delivering value in every working environment.

EMPLOYMENT HISTORY

Full Stack Developer | Arquitectura En Azure & CI/CD | Tech Leader - IXComercio

Quito, Pichincha

January 2024 - January 2026

- Developed TotalCommerce, a platform for managing customers and stores in the retail sector.
